Our AW&B Day-train is a great way to get your dog out training, exercising learning and playing all while you are at work or enjoying your own time!

Our Day-Train is run by our experienced and qualified team of senior behavioural trainers where we take on a maximum of 10 dogs per day.

During day-train hours, we are able to work on specific needs at your request, analyse and implement training strategies for your dog to improve their skillsets or modify their behaviour, allow your dog to engage in safe and controlled socialisation, and also provide your dog with the necessary and required down time to regulate their energy levels.

At the end of each day, our trainers are able to provide you with feedback on how your dog went and also give you some tips to continue working on their behaviour and skills.

Please book online via the booking link or send us an email! Please make sure you have thoroughly read the T&C's especially in relation to our cancellation policy.

T&C'S can be found in our
